

BONNY DOON VINEYARD

SKIN-CONTACT WINE OF THE EARTH

2021 CENTRAL COAST, CA

Orange Cigare? This is neither a wine made from oranges nor something that one might smoke. Rather, it refers to the curious orange color obtained when one ferments white grapes on their skins. "Orange" wines have the haunting fragrance of an elegant white wine - in this instance, the unmistakable scent of peach - and the textural richness and depth of a red wine. As to flying "Cigares" (French slang for UFOs): In 1954 a village in Châteauneuf-du-Pape wisely adopted an ordinance prohibiting the landing of such spacecraft in local vineyards. The ordinance has worked well, as there have been no such landings since the adoption of this far-sighted legislation.
